Fall-Line Motorsports and NASA Midwest join forces for a Winter Open House

Fall-Line Motorsports and NASA Midwest are hosting an Open House Saturday February 20, 2010 at Fall-Line Motorsports Northbrook Ill facility. The event will start off with lunch provided by the gang at Fall Line, followed by seminars on car preparation, speed secrets and how to get on track with NASA.

Please RSVP for this event at <http://tinyurl.com/NASA-Fall-Line>. Tickets are free and space is limited to the first 100 people that respond by February 10, 2010.

"The entire staff of Fall-Line is pleased to host the Open House and introduce NASA enthusiasts to what we have to offer", said Rob May, Director of Club Racing, of Fall-Line Motorsports.

"Fall-Line Motorsports and their drivers have become an integral part of our endurance program and the GTS series in particular. We are pleased to build on our relationship and look forward to a strong 2010", said Bryan Cohn, Director of Competition, NASA Midwest, Inc.

Dave Royce, Region Director of NASA Midwest Inc said, "We have seen a steady increase in teams with multiple cars and drivers over the last three years. Fall Line helps drivers who may not have the facilities to work on their car still enjoy track driving and racing. They have made more appearances at more NASA events, especially the events with enduros, which offer a great bang for the driving buck. This Open House helps NASA drivers meet the Fall-Line staff and is centrally located to allow new drivers to learn about NASA."
